Hello please find below my experience with DR hassan.

About 4 years back in university life, one of my friend was sad and depressed because he couldn't pay the semesters fee and he was afraid that he wont be able to attend final exams of semester and will be opted out from university soon. I asked him to talk directly with our rector of UMT and discuss financial matters. Next day right after jumah prayer rector came out and my friend rush towards him to discuss. Rector politely listened to his problem and asked him to visit in office. After few days i heard good news from friend that all of his fee from now on is null and void and he can complete his degree free of cost.

Yes this was our Rector, mentor and founder of UMT. He died in a road accident while on the way to khunjerab. Please pray for departed soul. May Allah reward him highest ranks in jannah.

Thanks
