My name is Hassan Nagra (12002105017)

I was student of UMT , an Overseas Student from Saudi Arabia

And Also the President of Overseas Participant Club .. and was Awarded with GOLD MEDAL in UMT 14th Convocation (held on 14th of November 2017)

I had alot of memories with Respected late Sir Hasan Sohaib Murad

I would like to share couple of them

Once i met him out side UMT masjid and i discussed my case (of my Health & Iqama) with him regarding my issue going back to Saudia for that completing my Degree by extra credit hours

Well he resolved my issue my sending a direct email to head of REGISTRAR OFFICE

His words were

““ He is having severe problems. Kindly facilitate him.

Hasan ““

Well after this 1 year & 8 months lapsed my degree was over i was in Pakistan for Convocation

I saw his car passed by me he asked his driver to stop his car

Put it on reverse gear and rolled his window down

And asked me

Hassan how are you now ? And what happened about your degree is it finished

I was so amazed and blanked i was so happy that he still remembered my issue

I told him the problem was resolved and i am here to attend the convocation

He gave me a big smile and he ask me to register my self in ALUMNI portal

I was so happy that not only he is THE RECTOR OF UMT he is ALSO the Owner of UMT .. i was walking by my Friend i told him His memory is so sharp that he even remember my name & my problem .. he was bothered to ask me about it that is why he is so success-full person because he is so Down to earth plus his memory is this much sharp ..

and one more memory i use to arrange Overseas Dinner for overseas students i remember in every dinner there would be like 250 to nearly 350 students from various countries for dinner

And respected sir hasan sohaib murad use to personally visit every student sitting and shaking hand with them and asking them that what are they studying in umt and is there any problem they are facing in umt share with him directly (i saw him treating girls & boys like there own children)

Once in overseas dinner i was giving my intro on stage as the President overseas Participant club

And i told about my dream of opening an AIRLINE on my name " Nagra Airline "

When i came down from the stage i was thinking that i was there on stage speaking for 5 mins and i thought may be no one listened

But after dinner i met with sir hasan and he personally ask me about that dream that did i started working on it i was so amazed that he was listening to my every word i said ..

He told me that "" always trust on yourself and you are the gold medalist of umt you should pursue your goal and IN SHA ALLAH one day you will achieve it trust Allah and be sincere with yourself and with your dream ""

I was so inspired by his personality and way of thinking i miss him ..

May ALLAH(SWT) give such a soul higher place in jannah (ameen)

Hassan Nagra (12002105017)

President Overseas Participant Club
